1. OPERATION OF THE MOTOR VEHICLE

On January 2, 2019 at 2150 hours, I was on patrol on Route 72 Eastbound near Marsha Drive. I stopped at the red traffic signal and witnessed a vehicle turn left onto Route 72 from Marsha Drive. I noticed that the vehicle made the turn very slowly. I proceeded to follow the vehicle onto the Causeway Bridge and witnessed it drift out of the lane several times and also straddle the center line. The vehicle gained speed at the top of the bridge and my radar detected the speed at 71 miles per hour at its fastest point. The speed limit on this section of Route 72 is 45 miles per hour. At milepost 27.5 I initiated a motor vehicle stop with the silver 2010 Dodge Avenger bearing New Jersey Registration [REDACTED].

I approached the driver side window and asked the driver for her documents. Her hands moved slowly as she looked through her belongings. I could detect the strong odor of an alcoholic beverage emanating from within the passenger compartment of the vehicle. There were no other passengers inside the vehicle. The driver was identified as Kelly Oswald of Surf City, NJ. She related that she drank two beers that evening at the Moose Lodge. Her eyes were red and watery and her speech was slow and slightly slurred. I asked her to exit the vehicle in order to conduct field sobriety tests on her for the purpose of determining her level of intoxication.

The following tests were demonstrated/conducted by this officer:

A. Horizontal Gaze Nystagmus

The Defendant was instructed to stand with her feet together with her arms at her sides. She was then instructed to follow the tip of my finger with her eyes without moving her head. Results: Both of the Defendant's eyes lacked smooth pursuit and displayed distinct and sustained nystagmus at maximum deviation. The onset of nystagmus prior to 45-degrees was also present.

B. Walk and Turn

The Defendant was instructed to stand with her right foot in front of her left foot with her arms at her sides while I demonstrated the test. She was then instructed to take nine steps in a straight line, heel to toe with her arms at her sides, turn, then take nine steps back in the same manner. She was instructed to count each step out loud. Results: The Defendant fell off balance when she placed her feet in the instructional position. She then began walking before I instructed her to begin. She was unable to hold the instructional position while i demonstrated the test. When instructed to begin, she walked forward without touching her heels to her toes. On the return, she fell off balance immediately and again on step number four. Her steps were not heel to toe and she did not walk in a straight line.

C. One Leg Stand

The Defendant was instructed to lift either foot six inches above the ground while keeping her arms at her sides, toe pointed, and leg straight. She was instructed to watch her toe and count out loud until I told her to stop. Results: The Defendant did not begin the test when I instructed her to. She then lifted her foot and fell off balance immediately.

Due to my observations, Oswald was placed under arrest for driving while intoxicated. She was placed inside the rear passenger compartment of Vehicle 3043 and transported to police headquarters.

3. ENROUTE TO STATION

During the transport the Defendant remained mostly quiet. When I arrived at the station and opened the door to remove the Defendant, I could detect an odor of an alcoholic beverage emanating from within the rear passenger compartment of my vehicle....

DMV STANDARD STATEMENT
FOR OPERATIONS OF A MOTOR VEHICLE
N.J.S.A. 39:4-50.2(e)

(Revised & effective, July 1, 2012)

THE ARRESTING OFFICER MUST READ THE FOLLOWING TO THE DEFENDANT:

FULL TEXT OF STANDARD STATEMENT FOLLOWS:

- 1. You have been arrested for driving while intoxicated. N.J.S.A. 39:4-50.
- 2. The law requires you to submit samples of your breath for the purpose of testing to determine alcohol content.
- 3. A record of the taking of the breath samples, including the test results, will be made. Upon your request, a copy of that record will be made available to you.
- 4. After you have provided samples of your breath for testing, you have the right, at your own expense, to have a person or physician of your own selection take independent samples of your breath, blood or urine for independent testing.
- 5. If you refuse to provide samples of your breath, you will be issued a separate summons for the refusal. A court may find you guilty of both refusal and driving while intoxicated.
- 6. If a court finds you guilty of the refusal, you will be subject to various penalties, including license revocation of up to 20 years, a fine of up to \$2000, installation of an ignition interlock, and referral to an Intoxicated Driver Resource Center. These penalties may be in addition to penalties imposed by the court for any other offense of which you are found guilty.

- 7. You have no legal right to have an attorney, physician or anyone else present for the purpose of taking the breath samples. You have no legal right to refuse to give, or delay giving, samples of your breath.
- 8. Any response from you that is ambiguous or conditional, in any respect, to my request that you provide breath samples, will be treated as a refusal to submit to breath testing. Even if you agree to take the test, but then do not follow my instructions, do not properly perform the test, or do not provide sufficient breath samples, I will charge you with refusal to submit to breath testing.
- 9. I repeat, the law requires you to submit samples of your breath for testing. Will you submit the samples of your breath?

ANSWER: DID NOT PROVIDE AN ANSWER

(ADDITIONAL INSTRUCTIONS FOR POLICE OFFICER):

**DIVISION OF MOTOR VEHICLES STANDARD STATEMENT
FOR OPERATIONS OF A COMMERCIAL MOTOR VEHICLE - N.J.S.A. 39:3-10.24e**

(Revised off Feb 1, 2001)

THE ARRESTING OFFICER MUST READ THE FOLLOWING TO THE DEFENDANT:

FULL TEXT OF STANDARD STATEMENT FOLLOWS:

- 1. You have been arrested for operating a commercial motor vehicle with an alcohol concentration of 0.04% or more.
- 2. You are required by law to submit to the taking of samples of your breath for the purposes of making chemical tests to determine your alcohol concentration.
- 3. A record of the taking of the samples, including the date, time and results, will be made. Upon your request, a copy of that record will be made available to you.
- 4. Any warnings previously given to you concerning your right to remain silent and your right to consult with an attorney do not apply to the taking of breath samples and do not give you the right to refuse to give, or to delay giving, samples of your breath for the purposes of making chemical tests to determine your alcohol concentration. You have no legal right to have an attorney, physician, or anyone else present, for the purpose of taking the breath samples.
- 5. After you have provided samples of your breath for chemical testing, you have the right to have a person or physician of your own selection, and at your own expense, take independent samples and conduct independent chemical tests of your breath, urine, or blood.
- 6. If you refuse to give samples of your breath you will be issued a separate summons for this refusal.
- 7. Any response that is ambiguous or conditional, in any respect, to your giving consent to the taking of breath samples will be treated as a refusal to submit to breath testing.

- 8. According to N.J.S.A. 39:3-10.24f, if a court of law finds you guilty of refusing to submit to chemical tests of your breath, then your license to operate any motor vehicle will be revoked by the court for a period of no less than six months and no more than two years. The Court will also fine you a sum of no less than \$250 and no more than \$500 for your refusal conviction.
- 9. If a court of law finds you guilty of refusing to submit to chemical tests of your breath, and you were operating a commercial motor vehicle, then your commercial driver license will be suspended by the court for a period of no less than one and no more than three years. If your refusal conviction is in connection with operating a commercial motor vehicle transporting hazardous material or displaying a hazardous material placard, then your commercial driver license will be suspended for three years. If your refusal conviction is in connection with a second or subsequent violation of any of the offenses specified at N.J.S.A. 39:3-10.20a, the Court will revoke your commercial driver license for life.
- 10. Any license suspension or revocation for a refusal conviction will be independent to any license suspension or revocation imposed for any related offense.
- 11. If you are convicted of refusing to submit to chemical tests of your breath, you must also satisfy the requirements of a program of alcohol education or rehabilitation.
- 12. I repeat, you are required by law to submit to the taking of samples of your breath for the purpose of making chemical tests to determine your alcohol concentration. Now, will you give the samples of your breath?

ANSWER: _____

(ADDITIONAL INSTRUCTIONS FOR POLICE OFFICER):

If the person: remains silent; or states or otherwise indicates that he/she refuses to answer on the grounds that he/she has a right to remain silent, or wishes to consult an attorney, physician, or any other person, or if the response is ambiguous or conditional in any respect whatsoever, then the police officer shall read the following additional statement:

FULL TEXT OF ADDITIONAL STATEMENT FOLLOWS:

I have previously informed you that the warnings given to you concerning your right to remain silent and your right to consult with an attorney, do not apply to the taking of breath samples and do not give you the right to refuse to give, or delay giving, samples of your breath for the purpose of making chemical tests to determine the content of alcohol in your blood. Your prior response, silence, or lack of response, is unacceptable. If you do not agree unconditionally to provide breath samples now, then you will be issued a separate summons charging you with refusing to submit to the taking of samples of your breath for the purpose of making chemical tests to determine the content of alcohol in your blood.

Once again, I ask you, will you give samples of your breath?

4. AT THE STATION

I read the Defendant her Miranda Rights and she invoked those rights. She was read the standard DWI Statement (N.J.S.A 39:4-50.2(e)) and she did not provide an acceptable answer and began asking questions. She was read the follow up paragraph and did not provide an unequivocal "yes" so she was charged with Refusal to Submit Breath Samples.

The vehicle was impounded by SouthshoreTowing and stored on their lot. Video from the MVR of Vehicle 3043 has been requested to be secured as evidence.

At 2255 hours Dawn Blauvelt signed the Potential Liability Form and the Defendant was released to her.

A mandatory court appearance has been set for January 18, 2019 at 0930 hours in Stafford Township Municipal Court.

1. OPERATION OF THE MOTOR VEHICLE

Arrival at Scene

On January 8, 2019 I was traveling East on Route 72 when dispatch received a phone call describing a running vehicle in the BP Gas parking lot blocking the exit, with an older gentleman slumped over in the vehicle. Shortly after the call, I arrived at the BP Gas station and observed a darker colored Subaru SUV in the area of the exit on to Route 72 West beyond the pumping stations. The vehicle was running. When I pulled up to the vehicle I observed an older male slumped over in the driver's seat of the vehicle. My initial reaction was that the driver was having a medical emergency. I approached the driver's side window and knocked in an attempt to gain a response from the driver. The knocking did not have an effect and I ultimately opened the driver side door to ascertain the driver's medical status. When I opened the door the driver came around and sat upright. I asked him if he was alright and he said he was "just checking," referring to his phone in his hand. I asked the driver if he had any medical history and he related that he did not have any issues. While conversing with the driver I could detect the odor of an alcoholic beverage emanating from the breath of the driver. In addition, I observed a bottle of Listerine in the driver side door consistent with someone attempting to mask the odor of an alcoholic beverage. While talking to the driver he related that he had been drinking at the Old Causeway. Once I was able to ascertain the driver was not having a medical I emergency I proceeded to have the driver, identified as Stephen Damiani, exit the motor vehicle to the rear for further testing.

Once at the rear of the vehicle the further tests were explained and demonstrated by me.

HGN

The first test I administered was HGN. Mr. Damiani stated that he did not have any neurological issues affecting his eyesight. Mr. Damiani had equal pupil size and equal tracking for both of his eyes. Mr Damiani had lack of smooth pursuit in both of his eyes, distinct and sustained nystagmus in both eyes, and onset of nystagmus prior to 45 degrees. Mr. Damiani had all six possible clues which are indicative of someone under the influence of alcohol. While conducting HGN Mr. Damiani had a noticeable sway in all directions and had to be reminded several times to keep his head still while following my pen while I was checking for equal tracking.

Walk and Turn Test

Following HGN, I explained and demonstrated the Walk and Turn Test. Once instructed to begin the test Mr. Damiani missed heel to toe and stepped off the line on steps 1,3 and 5 of his first portion of nine steps. Mr. Damiani did not conduct the turn as instructed and pivoted on the wrong foot and began his second portion of nine steps on the wrong foot. Mr. Damiani's returning nine steps did not have any clues.

One Leg Stand

Following the One Leg Stand Mr. Damiani was explained and demonstrated the One Leg Stand. He was afforded the opportunity to raise a leg of his choice and when instructed to begin he raised his right leg. Once he began he raised his foot and placed it down almost immediately after a count of 1,001. He raised his right leg and continued counting and then placed it down on a count of 1,007. Mr. Damiani did not placed his foot down again, but during the test continued to sway and hop which are also standardized clues.

Mr. Damiani was ultimately placed under arrest at 1909 hours for Driving While Intoxicated. His vehicle was impounded by South Shore Towing in accordance with John's Law.

DMV STANDARD STATEMENT
FOR OPERATIONS OF A MOTOR VEHICLE
N.J.S.A. 39:4-50.2(e)

(Revised & effective, July 1, 2012)

**THE ARRESTING OFFICER MUST READ THE FOLLOWING TO THE DEFENDANT:
FULL TEXT OF STANDARD STATEMENT FOLLOWS:**

1. You have been arrested for driving while intoxicated. N.J.S.A. 39:4-50.
2. The law requires you to submit samples of your breath for the purpose of testing to determine alcohol content.
3. A record of the taking of the breath samples, including the test results, will be made. Upon your request, a copy of that record will be made available to you.
4. After you have provided samples of your breath for testing, you have the right, at your own expense, to have a person or physician of your own selection take independent samples of your breath, blood or urine for independent testing.
5. If you refuse to provide samples of your breath, you will be issued a separate summons for the refusal. A court may find you guilty of both refusal and driving while intoxicated.

7. You have no legal right to have an attorney, physician or anyone else present for the purpose of taking the breath samples. You have no legal right to refuse to give, or delay giving, samples of your breath.

8. Any response from you that is ambiguous or conditional, in any respect, to my request that you provide breath samples, will be treated as a refusal to submit to breath testing. Even if you agree to take the test, but then do not follow my instructions, do not properly perform the test, or do not provide sufficient breath samples, I will charge you with refusal to submit to breath testing.

9. I repeat, the law requires you to submit samples of your breath for testing. Will you submit the samples of your breath?

ANSWER: YES

6. If a court finds you guilty of the refusal, you will be subject to various penalties, including license revocation of up to 20 years, a fine of up to \$2000, installation of an ignition interlock, and referral to an Intoxicated Driver Resource Center. These penalties may be in addition to penalties imposed by the court for any other offense of which you are found guilty.

(ADDITIONAL INSTRUCTIONS FOR POLICE OFFICER):

If the arrested person does not respond, or gives any ambiguous or conditional answer short of an unequivocal "yes," the police officer shall read the following.

FULL TEXT OF ADDITIONAL STATEMENT FOLLOWS:

Your answer is not acceptable. The law requires that you submit samples of your breath for breath testing. If you do not answer, or answer with anything other than "yes," I will charge you with refusal. Now, I ask you again, will you submit to breath testing?

ANSWER: _____

(ADDITIONAL INSTRUCTIONS FOR POLICE OFFICER):

If the person: remains silent; or states or otherwise indicates that he/she refuses to answer on the grounds that he/she has a right to remain silent, or wishes to consult an attorney, physician, or any other person, or if the response is ambiguous or conditional in any respect whatsoever, then the police officer shall read the following additional statement:

FULL TEXT OF ADDITIONAL STATEMENT FOLLOWS:

I have previously informed you that the warnings given to you concerning your right to remain silent and your right to consult with an attorney, do not apply to the taking of breath samples and do not give you the right to refuse to give, or delay giving, samples of your breath for the purpose of making chemical tests to determine the content of alcohol in your blood. Your prior response, silence, or lack of response, is unacceptable. If you do not agree unconditionally to provide breath samples now, then you will be issued a separate summons charging you with refusing to submit to the taking of samples of your breath for the purpose of making chemical tests to determine the content of alcohol in your blood.

Once again, I ask you, will you give samples of your breath?

He stated that he had been drinking at the Old Causeway and had consumed approximately five drinks over the course of approximately five hours. Once the observation period was satisfied all electronic devices were removed and Mr. Damiani provided breath samples. Prior to each breath sample a new mouthpiece was used and Mr. Damiani was read the instructional paragraph prior to each breath sample as well. Once two valid breath samples were supplied Mr. Damiani's reported breath test result was a [REDACTED]. Those results were found to be within the acceptable tolerance on the Alcotest Calculator. Mr. Damiani was ultimately released to a friend who signed the potential liability waiver.

On January 17, 2019 at 1830 hours, I responded to ██████ Nautilus Dr. in Manahawkin, NJ and spoke with Detective Andrew Ridsen of the Ocean Twp. Police Dept. Det. Ridsen advised he currently had Thomas Derocker under arrest for a burglary, theft complaint stemming from their town and believed the stolen items may still be inside Derocker's bedroom. Det. Ridsen advised the defendant had given written consent to search his bedroom and was present during the search. While searching the bedroom, investigating detectives located several items described to be used during the burglary, theft. In the center of the bedroom was a large green safe said to be taken from the victim's house which contained over \$60,000.00 cash at the time it was stolen. On the bedroom dresser was a green eyeglass case containing numerous hypodermic needles and wax folds which had a white powdery residue. I gathered the CDS and drug paraphernalia and secured the evidence at police headquarters. Ocean County CSI secured the remaining items and will be processed for evidence. At the time of this report Derocker was transported back to Ocean Twp. where he was processed and lodged in Ocean County Jail. The defendant will be charged with possession of CDS and drug paraphernalia out of Stafford Twp. Municipal Court.

1. OPERATION OF THE MOTOR VEHICLE

On Saturday, January 19, 2019, I, Patrolman Joseph Luna #112, observed a vehicle enter Route 72 from the Mill Creek Road/Taco Bell area, swerve to the shoulder of the roadway, then quickly re-enter Route 72 and travel west bound on Route 72. I closed the distance between the above vehicle and my patrol vehicle and observed a silver Nissan bearing New Jersey registration [REDACTED] travelling west bound on Route 72 in between Mill Creek Road and Jennings Road. The suspect vehicle was swaying within it's lane of travel (right lane), was travelling at approximately 35 miles per hour in a 55 miles per hour zone, and was travelling with a front passenger side flat tire. Smoke was also protruding from the front passenger side of the vehicle and a strong odor of burnt rubber was detected as I travelled behind the suspect vehicle. I effected a motor vehicle stop on the suspect vehicle on Route 72 near WaWa and approached the suspect vehicle on the passenger side. I made contact with the driver of the suspect vehicle, later identified as Susan Danna, through the front passenger window. I began speaking with Danna and asked her what she struck as her front passenger side tire was flat and she denied striking anything. Danna was asked to provide me with her driver's license, proof of insurance, and vehicle registration, which she did. I noticed Danna's hand movements were slow and fumbling. I detected a strong odor of alcoholic beverages coming from the interior of the vehicle as Danna spoke and there were no other passengers within the vehicle. Danna stated she was coming from the Ocean Acres section of Stafford Township, which is several miles away from where she was. Danna was asked to exit the vehicle, to which she complied. Patrolman Giovanni DeMarco #104 checked the area of Mill Creek Road and Taco Bell (where Danna was observed coming from) and he advised it appeared as though someone hit the median/curb area of the Taco Bell entry/exit as the grass and mud was messed. Danna swayed and slightly staggered as she exited her vehicle and was escorted to the area between our two vehicles.

2. FIELD SOBRIETY TESTS

While awaiting backup, I further spoke with Danna. She was advised that Ptl. DeMarco saw she may have struck the curb area at Taco Bell and Danna stated she heard a bang as she drove through the Taco Bell parking lot and may have struck a curb. Danna's speech was slow and slurred and I again detected the strong odor of alcoholic beverages coming from Danna as she spoke. I also observed Danna's eyes to be watery and bloodshot and her eyelids were droopy. Upon Ptl. DeMarco's arrival (Patrolman Donald Haines #108 also arrived to assist), the following field sobriety tests were demonstrated/administered by me; all tests were performed on a flat and dry surface, free from debris:

Horizontal Gaze Nystagmus:

Danna was instructed to stand with her feet together and her arms down at her sides. She was instructed to follow the tip of my pen with her eyes without moving her head. Danna advised she understood the instructions.

Results:

Danna was advised four times to not move her head. Both of her eyes lacked smooth pursuit and displayed distinct and sustained nystagmus at maximum deviation. The onset of nystagmus was present prior to forty five degrees.

Walk and Turn:

Danna was instructed to stand with her right foot in front of her left foot in a heel to toe manner with her arms down at her sides while I demonstrated the test. She was then instructed to take nine heel to toe steps forward, turn, then take nine heel to toe steps in the same manner. She was also instructed to count the steps out loud. Danna advised she understood the instructions. Danna was provided the opportunity to remove her high heel shoes to which she declined.

Results:

Danna walked forward without making heel to toe contact on all steps. She then turned and took nine more steps, failing again to make heel to toe contact on all steps. Danna had a slight sway as she walked also....

N.J.S.A. 39:4-50.2(e)

(Revised & effective, July 1, 2012)

THE ARRESTING OFFICER MUST READ THE FOLLOWING TO THE DEFENDANT:

FULL TEXT OF STANDARD STATEMENT FOLLOWS:

- 1. You have been arrested for driving while intoxicated. N.J.S.A. 39:4-50.
- 2. The law requires you to submit samples of your breath for the purpose of testing to determine alcohol content.
- 3. A record of the taking of the breath samples, including the test results, will be made. Upon your request, a copy of that record will be made available to you.
- 4. After you have provided samples of your breath for testing, you have the right, at your own expense, to have a person or physician of your own selection take independent samples of your breath, blood or urine for independent testing.
- 5. If you refuse to provide samples of your breath, you will be issued a separate summons for the refusal. A court may find you guilty of both refusal and driving while intoxicated.
- 6. If a court finds you guilty of the refusal, you will be subject to various penalties, including license revocation of up to 20 years, a fine of up to \$2000, installation of an ignition interlock, and referral to an Intoxicated Driver Resource Center. These penalties may be in addition to penalties imposed by the court for any other offense of which you are found guilty.
- 7. You have no legal right to have an attorney, physician or anyone else present for the purpose of taking the breath samples. You have no legal right to refuse to give, or delay giving, samples of your breath.
- 8. Any response from you that is ambiguous or conditional, in any respect, to my request that you provide breath samples, will be treated as a refusal to submit to breath testing. Even if you agree to take the test, but then do not follow my instructions, do not properly perform the test, or do not provide sufficient breath samples, I will charge you with refusal to submit to breath testing.
- 9. I repeat, the law requires you to submit samples of your breath for testing. Will you submit the samples of your breath?

ANSWER: NO

(ADDITIONAL INSTRUCTIONS FOR POLICE OFFICER):

If the arrested person does not respond, or gives any ambiguous or conditional answer short of an unequivocal "yes," the police officer shall read the following.

FULL TEXT OF ADDITIONAL STATEMENT FOLLOWS:

Your answer is not acceptable. The law requires that you submit samples of your breath for breath testing. If you do not answer, or answer with anything other than "yes," I will charge you with refusal. Now, I ask you again, will you submit to breath testing?

**DIVISION OF MOTOR VEHICLES STANDARD STATEMENT
FOR OPERATIONS OF A COMMERCIAL MOTOR VEHICLE - N.J.S.A. 39:3-10.24e**

(Revised off Feb 1, 2001)

THE ARRESTING OFFICER MUST READ THE FOLLOWING TO THE DEFENDANT:

FULL TEXT OF STANDARD STATEMENT FOLLOWS:

1. You have been arrested for operating a commercial motor vehicle with an alcohol concentration of 0.04% or more.
2. You are required by law to submit to the taking of samples of your breath for the purposes of making chemical tests to determine your alcohol concentration.
3. A record of the taking of the samples, including the date, time and results, will be made. Upon your request, a copy of that record will be made available to you.
4. Any warnings previously given to you concerning your right to remain silent and your right to consult with an attorney do not apply to the taking of breath samples and do not give you the right to refuse to give, or to delay giving, samples of your breath for the purposes of making chemical tests to determine your alcohol concentration. You have no legal right to have an attorney, physician, or anyone else present, for the purpose of taking the breath samples.
5. After you have provided samples of your breath for chemical testing, you have the right to have a person or physician of your own selection, and at your own expense, take independent samples and conduct independent chemical tests of your breath, urine, or blood.
6. If you refuse to give samples of your breath you will be issued a separate summons for this refusal.
7. Any response that is ambiguous or conditional, in any respect, to your giving consent to the taking of breath samples will be treated as a refusal to submit to breath testing.
8. According to N.J.S.A. 39:3-10.24f, if a court of law finds you guilty of refusing to submit to chemical tests of your breath, then your license to operate any motor vehicle will be revoked by the court for a period of no less than six months and no more than two years. The Court will also fine you a sum of no less than \$250 and no more than \$500 for your refusal conviction.
9. If a court of law finds you guilty of refusing to submit to chemical tests of your breath, and you were operating a commercial motor vehicle, then your commercial driver license will be suspended by the court for a period of no less than one and no more than three years. If your refusal conviction is in connection with operating a commercial motor vehicle transporting hazardous material or displaying a hazardous material placard, then your commercial driver license will be suspended for three years. If your refusal conviction is in connection with a second or subsequent violation of any of the offenses specified at N.J.S.A. 39:3-10.20a, the Court will revoke your commercial driver license for life.
10. Any license suspension or revocation for a refusal conviction will be independent to any license suspension or revocation imposed for any related offense.
11. If you are convicted of refusing to submit to chemical tests of your breath, you must also satisfy the requirements of a program of alcohol education or rehabilitation.
12. I repeat, you are required by law to submit to the taking of samples of your breath for the purpose of making chemical tests to determine your alcohol concentration. Now, will you give the samples of your breath?

ANSWER: _____

(ADDITIONAL INSTRUCTIONS FOR POLICE OFFICER):

If the person: remains silent; or states or otherwise indicates that he/she refuses to answer on the grounds that he/she has a right to remain silent, or wishes to consult an attorney, physician, or any other person, or if the response is ambiguous or conditional in any respect whatsoever, then the police officer shall read the following additional statement:

FULL TEXT OF ADDITIONAL STATEMENT FOLLOWS:

I have previously informed you that the warnings given to you concerning your right to remain silent and your right to consult with an attorney, do not apply to the taking of breath samples and do not give you the right to refuse to give, or delay giving, samples of your breath for the purpose of making chemical tests to determine the content of alcohol in your blood. Your prior response, silence, or lack of response, is unacceptable. If you do not agree unconditionally to provide breath samples now, then you will be issued a separate summons charging you with refusing to submit to the taking of samples of your breath for the purpose of making chemical tests to determine the content of alcohol in your blood.

Once again, I ask you, will you give samples of your breath?

One Leg Stand:

Danna was instructed to lift the leg of her choice approximately six inches off of the ground while keeping her arms down at her sides, point her toe down, and look down at her toe as she counted one one thousand, two one thousand, three one thousand, four one thousand and so on until she was told to stop. Danna advised she understood the instructions.

Results: Danna asked how many steps and lifted her right foot off of the ground briefly. I again explained the instructions to Danna and she again lifted her right foot off of the ground and counted one one thousand, two one thousand, three one thousand and put her right foot down and slightly stumbled to her right.

Based on my observations and Danna's performance on the field sobriety tests, she was placed under arrest for driving while intoxicated. Danna was secured in the rear of my patrol vehicle #3042. Mastercraft Towing arrived to impound the suspect vehicle as per John's Law.

3. EN ROUTE TO POLICE HEADQUARTERS:

While en route to Police Headquarters, I detected the strong odor of alcoholic beverages emanating from the rear passenger compartment of my vehicle which was not present prior to Danna being placed inside.

4. AT POLICE HEADQUARTERS:

Once at Police Headquarters, Danna was advised of her constitutional rights as per Miranda, which she verbally waived and signed a Miranda Warning card. She was then read the standard statement for operator's of a motor vehicle to which she replied "NO". She was then read the remainder of the standard statement for operator's of a motor vehicle to which she also replied "NO". I then completed and processed the alcohol influence report as a refusal and Danna was charged with driving while intoxicated, refusal to submit to breath testing, reckless driving, failure to maintain a lane, and impeding the flow of traffic. Danna was released to her ex husband, George Kesheneto Jr, who signed and fully understood the potential liability as per John's Law form.

(37) NARRATIVE OF INVESTIGATION - Number, capitalize and underline the following paragraph titles in the sequence of events. Be brief, record events in order to refresh recollection at a later time. 1. OPERATION OF THE MOTOR VEHICLE; 2. WHEN STOPPED OR ARRIVAL AT SCENE: - If an accident; 3. ENROUTE TO STATION: or wherever going; 4. AT THE STATION: or wherever taken, i.e., doctor's office, hospital, etc.; 5. List other TRAFFIC OFFENSES by summons number and statute number. (Use continuation page S.P. 317-1 if more space is needed).

1. OPERATION OF THE MOTOR VEHICLE

On January 24, 2019 at 0033 hours I was in Vehicle 3036 in the parking lot of Stafford Township Police Headquarters with the my driver side window open. Coming from the direction of Bay Avenue, I heard a vehicle spinning its tires. As I pulled out of the parking lot I witnessed a vehicle on Bay Avenue heading west towards Route 9. I pulled up behind the silver Chevy Silverado bearing New Jersey Registration [REDACTED] while it stopped at the Route 9/East Bay Avenue traffic signal. When the light turned green, the vehicle proceeded onto West Bay Avenue and onto Route 72 West. I witnessed the vehicle swerve right, over the white fog line, and when it merged onto Route 72 it changed lanes and did not fully complete the lane change, straddling the line dividing the lanes. I initiated a motor vehicle stop on Route 72 Westbound near milepost 22.6.

I approached the driver's window and asked the driver for his documents. I could detect the odor of an alcoholic beverage emanating from within the passenger compartment of the vehicle. The driver, identified as Steven Kolb, had watery and slightly red eyes. Kolb related that he drank two beers that evening. I asked him to exit the vehicle in order to conduct field sobriety tests on him for the purpose of determining his level of intoxication.

The following tests were demonstrated/conducted by this officer:

A. Horizontal Gaze Nystagmus

The Defendant was instructed to stand with his feet together with his arms at his sides. He was then instructed to follow the tip of my finger with his eyes without moving his head. Results: Both of the Defendant's eyes lacked smooth pursuit and displayed distinct and sustained nystagmus at maximum deviation. The onset of nystagmus prior to 45-degrees was not present.

B. Walk and Turn

The Defendant was instructed to stand with his right foot in front of his left foot with his arms at his sides while I demonstrated the test. He was then instructed to take nine steps in a straight line, heel to toe with his arms at his sides, turn, then take nine steps back in the same manner. He was instructed to count each step out loud. Results: The Defendant was unable to hold the instructional position while I explained the test. He then began the test and fell off balance on step four. His arms were away from his body being used for balance.

C. One Leg Stand

The Defendant was instructed to lift either foot six inches above the ground while keeping his arms at his sides, toe pointed, and leg straight. He was instructed to watch his toe and count out loud until I told him to stop. Results: The Defendant moved his arms away from his sides for balance and put his foot down at six counts.

Due to my observations, the driver was placed under arrest for driving while intoxicated. He was placed inside the rear passenger compartment of Vehicle 3036 and transported to police headquarters.

3. ENROUTE TO STATION

The Defendant was transported without incident. When I arrived at the station and opened the door to remove the Defendant, I could detect an odor of an alcoholic beverage emanating from within the rear passenger compartment of my vehicle.

4. AT THE STATION

According to the Alcotest clock, at 0053 hours I began to observe the Defendant continuously...

(Revised & effective, July 1, 2012)

**THE ARRESTING OFFICER MUST READ THE FOLLOWING TO THE DEFENDANT:
FULL TEXT OF STANDARD STATEMENT FOLLOWS:**

- 1. You have been arrested for driving while intoxicated. N.J.S.A. 39:4-50.
- 2. The law requires you to submit samples of your breath for the purpose of testing to determine alcohol content.
- 3. A record of the taking of the breath samples, including the test results, will be made. Upon your request, a copy of that record will be made available to you.
- 4. After you have provided samples of your breath for testing, you have the right, at your own expense, to have a person or physician of your own selection take independent samples of your breath, blood or urine for independent testing.
- 5. If you refuse to provide samples of your breath, you will be issued a separate summons for the refusal. A court may find you guilty of both refusal and driving while intoxicated.

- 7. You have no legal right to have an attorney, physician or anyone else present for the purpose of taking the breath samples. You have no legal right to refuse to give, or delay giving, samples of your breath.
- 8. Any response from you that is ambiguous or conditional, in any respect, to my request that you provide breath samples, will be treated as a refusal to submit to breath testing. Even if you agree to take the test, but then do not follow my instructions, do not properly perform the test, or do not provide sufficient breath samples, I will charge you with refusal to submit to breath testing.
- 9. I repeat, the law requires you to submit samples of your breath for testing. Will you submit the samples of your breath?

ANSWER: YES

- 6. If a court finds you guilty of the refusal, you will be subject to various penalties, including license revocation of up to 20 years, a fine of up to \$2000, installation of an ignition interlock, and referral to an Intoxicated Driver Resource Center. These penalties may be in addition to penalties imposed by the court for any other offense of which you are found guilty.

(ADDITIONAL INSTRUCTIONS FOR POLICE OFFICER):

4. Any warnings previously given to you concerning your right to remain silent and your right to consult with an attorney do not apply to the taking of breath samples and do not give you the right to refuse to give, or to delay giving, samples of your breath for the purposes of making chemical tests to determine your alcohol concentration. You have no legal right to have an attorney, physician, or anyone else present, for the purpose of taking the breath samples.
5. After you have provided samples of your breath for chemical testing, you have the right to have a person or physician of your own selection, and at your own expense, take independent samples and conduct independent chemical tests of your breath, urine, or blood.
6. If you refuse to give samples of your breath you will be issued a separate summons for this refusal.

FULL TEXT OF ADDITIONAL STATEMENT FOLLOWS:

I have previously informed you that the warnings given to you concerning your right to remain silent and your right to consult with an attorney, do not apply to the taking of breath samples and do not give you the right to refuse to give, or delay giving, samples of your breath for the purpose of making chemical tests to determine the content of alcohol in your blood. Your prior response, silence, or lack of response, is unacceptable. If you do not agree unconditionally to provide breath samples now, then you will be issued a separate summons charging you with refusing to submit to the taking of samples of your breath for the purpose of making chemical tests to determine the content of alcohol in your blood.

Once again, I ask you, will you give samples of your breath?

through the completion of the testing. During this observation period, the Defendant did not burp, vomit, or place anything into his mouth. I read the Defendant his Miranda Rights and he signed the Rights Waiver Card acknowledging that he understood those rights. He was read the standard DWI Statement (N.J.S.A 39:4-50.2(e)) and he replied with "yes" indicating his consent to submit samples for chemical breath testing. I placed my MVR microphone, cell phone, taser, and portable radio outside the Alcotest Room. I then read the Defendant the instructions for providing breath samples, allowing him to read along, and at 0120 hours this officer administered the Alcotest 7110 examination. The Defendant provided two adequate samples and his blood alcohol content was recorded as [REDACTED]. A new mouthpiece was used for each test. The results were input into the Alcotest Calculator and they returned within the acceptable tolerance range.

The vehicle was impounded by Priced RiteTowing and stored on their lot. Video from the MVR of Vehicle 3036 has been requested to be secured as evidence.

At 0155 hours the Defendant's father, Rick Kolb, signed the Potential Liability Form and the Defendant was released to him.

A mandatory court appearance has been set for February 7, 2019 at 0930 hours in Stafford Township Municipal Court.

1. OPERATION OF THE MOTOR VEHICLE

1. Operation of the Motor Vehicle

On January 25, 2019 I was dispatched to Gray's Road for a loud party in the woods. Upon arrival, Patrolman Wade and I began to take the Grays's Road trail into the woods. While taking the trail, we reached a point of where our vehicles could not make it through the mud and water, making us turn around. Throughout the night, Patrolman Eiker and I frequently checked the area for any vehicles leaving the trail on Gray's Road from the loud party. On January 26, 2019 at approximately 0138 hours Patrolman Eiker advised that he had multiple vehicles exiting the trail at the end of Gray's Road heading towards Pancoast Road. Patrolman Eiker activated his emergency lights to conduct a motor vehicle stop on the multiple vehicles that exited the trail.

2. At the Scene

Upon my arrival, I exited my patrol vehicle and approached a blue Jeep bearing New Jersey Registration [REDACTED]. I spoke with the driver Nicholas Angellella (accused) who handed me his driver's license, registration card, and showed me his insurance information on his cell phone. I asked the accused how many people were still in the woods. The accused answered "a couple". While speaking with the accused I detected the odor of alcoholic beverages emanating from the interior of the Jeep.

After receiving all of the accused information I proceeded to the Toyota Tacoma which was the vehicle behind the accused and spoke with the driver. I requested to see the male's driver's license, registration, and insurance card which he complied. I returned to my patrol vehicle with the following information making sure both the accused and male in the Toyota Tacoma had valid driver's license. After confirming both driver's license were valid, I then approached the accused vehicle requesting him to exit the Jeep. I questioned the accused what he was doing in the woods, and he stated he was not drinking and went for a trail ride. The accused stated he saw the fire and party but continued past it with his friend in the Toyota Tacoma. While speaking with the accused his speech slurred and I advised the accused that I could detect the odor of alcoholic beverages emanating from the accused. Additionally, the accused eyes appeared watery.

Based on the mentioned circumstances, I began to administer field sobriety testing. The following tests were explained, and/or demonstrated by me.

Test 1 Alphabet-

I asked the accused what his highest level of education was and he responded high school diploma. The accused was asked if he understood the English alphabet and he related he did. The accused was asked to recite the alphabet from the letter "C" to the letter "X" in a slow controlled manner. I confirmed he understood the instructions.

Results: The accused recited the alphabet "C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, M, Z, X and stopped.

Test 2 Counting Down-

I asked the accused if he understood numbers and he related to me that he did. The accused was asked to count down from number 98 to 77. I confirmed he understood the instructions.

Results: The accused recited numbers "98, 97, 96, 95, 94, 93, 94, 93, 92, 91, 90, 89, 87, 86, 85, 84, 83, 82, 81, the accused stopped the test the continued by stating 80, the accused stopped again and asked me what number to end on. I stated number 77. The accused continued stating 79, 78, 77 and stopped the test.

At this time, the accused stated he had one miller lite earlier in the night. After speaking with the accused I requested him to return to his motor vehicle. I then proceeded to the accused friend in the Toyota Tacoma to return his documents and advise him of the noise...

complaints on the party in the woods. The male party understood and continued home.

I returned to the accused vehicle and requested the accused to exit towards the rear of his vehicle.

Test 3 Walk and Turn-

The accused was asked to put his right foot in front of his left foot in a heel to toe manner while keeping his arms down to his sides for the starting position. I demonstrated the position for the accused, asked him to assume the position, and informed him to remain in this position while I explained and demonstrated the test. When instructed to begin the accused was advised to walk nine steps forward in a heel to toe manner counting each step out loud keeping his arms down at his sides. When he completed nine forward steps, he would take a small series of steps around and return to the starting position. I further instructed the accused to walk nine more steps forward in the same manner after turning around. I then confirmed he understood the instructions. Before the test was started I asked the accused if he had any injuries or deformities. The accused stated he had an ACL replacement in his right knee three years ago causing him to have three screws and a plate in his knee.

Results: While the accused assumed this position he began to sway and stagger from his right side to his left side. The accused continually lost balance while maintaining the starting position and did not keep a heel to toe manner while maintaining the starting position. I asked the accused if he understood the instructions, to which he stated he understood the instructions. The accused began the test only taking steps 1, 2, 3, turned around steps 4, 5, 6 the accused turned around again taking steps 7, 8, 9. During the test the accused raised his arms off his sides for balance and his upper body swayed as he walked. The accused did not maintain a straight line during the test, while losing his balance and stepping off the line on step 4. The accused was demonstrated and explained the walk and turn test again. During the second test the accused took ten steps forward. On steps 3, 4, 5, 6, 7, and 9 the accused did not maintain heel to toe and his feet did not stay in a straight line. The accused turned around and on steps 1, 2, 3, 7, 8, and 9 he lost balance not maintaining a heel to toe position.

Test 4 One Leg Stand Test-

I asked the accused to stand with his feet together and his arms down at his sides. I demonstrated the position for him. I asked the accused to lift the foot of his choice six inches off the ground with his foot parallel to the ground, and his eyes directed at his foot. While his foot was raised he was instructed to count out loud "one one thousand, two one thousand, three one thousand," and so on until advised to stop counting. I then confirmed he understood the instructions.

Results: The accused raised his right foot in the air and immediately dropped it down to the ground on number "one one thousand". The accused dropped his foot down to the ground on "thirty one thousand". During the test, I observed the accused upper body and raised foot swaying left and right. Additionally, the accused foot was not raised six inches off the ground as instructed.

At this point, I placed the accused under arrest for operating a motor vehicle under the influence of alcohol. The accused was handcuffed and seated into the rear of my patrol vehicle for transport.

3. Enroute to Headquarters:

The accused was cooperative during the transport. Upon arrival, I detected the odor of alcoholic beverages emanating from the rear compartment of my patrol vehicle where he was sitting.

4. At the Station:

I read the accused his Miranda Rights, read the statement for DWI violators at which time he consented to provide samples of his breath for testing by stating "yes." A twenty minute observation period was conducted, during which the accused did not eat, drink, or belch. During this twenty minute observation period the accused became upset and began crying. After continuously observing the accused for twenty minutes, all radios and electronics were powered down and removed from the processing room. Patrolman Eiker then administered the Alcotest examination on the accused resulting in a BAC of [REDACTED]. It should be noted Patrolman Eiker used a new mouth piece for each breath sample.

The accused was later released to his friend, Michel Curtis, after she signed the potential liability form. The accused was released with a future court date at Stafford Township Municipal Court and charged with the following:

39:4-50 Driving while intoxicated
39:4-96 Reckless driving
